

began only a few hours after the Neighbours washed my hair raising  
 speculation that  
 Washington began as Seinfeld blew my hair dry response  
 to US officials cautioned The  
 Simpsons  
 which was stupid because it was still raining Australian forces were involved in  
 Cruel Intentions  
 and I'd get wet on the way to the bus stop deep inside Iraq  
 providing vital support  
 to The News I got dressed quickly but couldn't find my scarf so special  
 forces troops were  
 dropped deep behind the  
 Sports  
 Tonight I looked at myself in the mirror to find weapons of  
 mass destruction and locate  
 V8 Superstars which made me decide to get dressed  
 again with Mr  
 Rumsfeld said today that what the pentagon called Video Hits Uncut wandered out to  
 the kitchen to make  
 just a first taste of what would soon become an episode  
 of Home Shopping  
 black coffee which Mr Rumsfeld confirmed  
 that Iraqi troops had set three or four oil fires in E Street  
 burned some toast  
 but refused to say whether This is Your Day with Benny had in fact  
 grabbed my things and accelerated plans for ground strikes on Christian City TV  
 slammed the door  
 behind me.
